

SHAPE 50

Product Specification Sheet

Shape 50 is the versatile monitoring loudspeaker par excellence. This monitor can be used from 30" away (80cm), and it has very extended low end frequency response (50Hz) considering its compact design. Thanks to this design and to the numerous settings, this monitor is ideal for rooms measuring less than 130ft² (12m²).

Key points

- Low directivity tweeter for a flexible listening position
- Designed without a port allowing it to be placed near a wall
- Numerous settings for optimal integration
- Accurate control, even in the very high end
- Flax sandwich cone: controlled and articulated bass, natural and detailed lower mid-range and upper mid-range registers
- Threads for ceiling and wall mounts (fastening accessories not supplied)
